

Gembuild Garden Offices

Gembeam Range - Goodwood Garage

These beautiful garages will enhance any environment. Based on a 6 m x 5.4 m double unit all you have to provide is a concrete slab and two courses of bricks.

They consist of a 140mm treated post and beam frame to include all decorative metal connections and decorative crucking. Infilled with 89 x 38 timber panels under a cedar shingle roof and clad in a quality section 200mm feather edge board finished in black barn paint.

There is guttering to the front and rear with downpipes and there is of course a decorative clock.

The design is based on a double unit but you can add single units (5.4m x3.0m) and doors as you wish. A wiring package is also available and we can offer a clock tower and a variety of weather vanes.

The delivery on these units is 6-8 weeks

Gembeam Range - Goodwood Stable

These top quality stables are based on a 3.6m x 7.2m double unit. All you have to provide is a concrete slab, two courses of bricks and a horse! They consist of a 140mm treated post and beam frame to include all decorative metal connections and decorative crucking to form front porch.

The stable areas are constructed with 89 x 38 timber panels under a cedar shingle roof and clad in a quality section 200mm feather edge board finished in black barn paint.

The stables doors are in heavy duty stained soft wood with galvanized hinges and closers. There are 1200mm kick boards constructed with 150mm x 25mm sawn boards. There is guttering to front and rear with downpipes and there is of course a decorative clock. The roof is in copper brown asphalt shingles.

The design is based on a double unit but you can add extra units as you wish. A wiring package is also available and we can offer a clock tower and a variety of weather vanes.

The delivery on these units is 6-8 weeks
